

EcoGun ACE

Manual gravity feed cup spray gun with disposable nozzle & and cup system

The **EcoGun ACE** is a perfect combination of traditional painting equipment provided by Dürr and a new, revolutionary concept by HSM. This manual air spray gun utilizes a disposable nozzle system ACE-SPE with a disposable cup system SPA EASY LINE or EASY LINE MIX to simplify the gun cleaning process to needle tip cleaning only. This significantly reduces maintenance downtime and saves money on cleaning agents. At the same time, the **EcoGun ACE** provides all standard functionality, such as, spray pattern regulation (round to flat), air, and paint volume control.

CUSTOMER BENEFITS

[Revolutionary disposable nozzle system ACE-SPE](#)

[Up to a 90% less solvent consumption](#)

[Fast paint color exchange](#)

[2-in-1-Technology: change from reduced overspray \(conventional\) to minimum overspray \(LVLP\) within seconds](#)

[Quick-clip needle removal and insertion](#)

[Quick Clip technology allows needle removal and installation without changing the preset needle stroke](#)

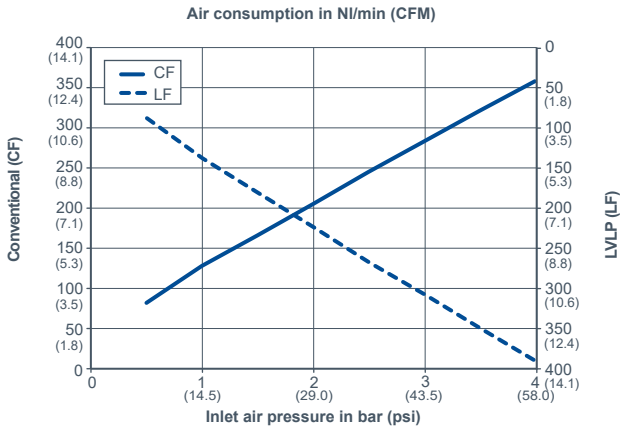

[Lightweight design with optimum center of gravity for ergonomic handling](#)

EcoGun ACE

CHARACTERISTICS

TECHNICAL ILLUSTRATION

- 1 Disposable cup SPA EASY LINE MIX, 2 Disposable cup SPA EASY LINE, 3 Air cap (CF or LF/LVLP), 4 Disposable nozzle insert ACE-SPE

SPECIFICATION

Weight	418 g (with nozzle insert, without cup)
Materials contacted by media	Stainless steel, PP
Dimensions	185x150x40 (without cup)
Compr. Air Quality ISO 8573-1	ISO 8573-1:2010 [1:4:2]
Flow rate of media, max.	0 - 700 ml/min
Storage temperature	10 - 40 °C
Temperature of media	< 40 °C
rel. Humidity operation	35 - 90 %
rel. Humidity storage	35 - 90 %
Spray Distance	150 - 250 mm
Viscosity	< 400 mPa.s
ATEX marking	Ex II 2G T40°C X
Air inlet	G 1/4"
Material Gaskets	PP, FEPM, PE, FKM, PTFE

NOZZLE SELECTION

Part number	Description	Nozzle diameters [mm] / Media
M35030296	Air cap CF (A) 0,5-1,2mm	1.2
M35030297	Air cap LF/LVLP (A) 0,5-1,2mm	Fine finish coating, top coats
M35030298	Air cap CF (B) 1,3-1,6mm	1.3 / 1.4 / 1.6
M35030299	Air cap LF/LVLP (B) 1,3-1,6mm	General coatings e.g. base coats, primers, fillers
M35030300	Air cap CF (C) 1,8-2,5mm	1.8 / 2.0 / 2.5
M35030301	Air cap LF/LVLP (C) 1,8-2,5mm	General coatings e.g. base coats, primers, fillers
